PROFESSIONAL SUMMARY

SAP Integration Consultant with 2 years of hands-on experience in SAP BTP Integration Suite (SAP Cloud Integration / CPI) and SAP PI/PO. SAP CPI Successfully Delivered 125+ CPI interfaces implemented and 2 SAP PI/PO to CPI migrations for enterprise clients in automotive, financial services, logistics and manufacturing, with zero-downtime go-lives. Skilled in iFlow development, Groovy scripting, XSLT and message mapping, OData V2/V4, IDoc, SOAP, REST and SFTP (PGP) integrations with SAP S/4HANA, along with SAP API Management, Cloud Connector setup and production troubleshooting.

TECHNICAL SKILLS

- **SAP Integration:** SAP BTP Integration Suite, SAP Cloud Integration (CPI), SAP PI/PO, SAP API Management, Integration Cell, Cloud Connector, CPI Operations Cockpit, SAP Integration Patterns
- **Integration Development:** iFlow design, message mapping, XSLT, Groovy scripting, content modifier, router, splitter, gather, exception subprocess, value mapping, error handling frameworks
- **Adapters & Protocols:** SOAP, REST, HTTP, OData V2/V4, IDoc, SFTP, JDBC, File, Mail, OAuth, Basic Auth, certificate-based authentication
- **Security & Connectivity:** PGP encryption, keystore and certificate management, SSL/TLS, 401/403 troubleshooting, VPN and private API access
- **SAP S/4HANA:** S/4HANA integration, SAP Gateway (IWFND), IDoc processing, SM59, SU01, STRUST, ABAP (Basic)
- **Programming & Transformation:** Groovy, XSLT, XML, JSON, SQL (Intermediate), Python (Basic), C++ (Advanced), OOP, Data Structures and Algorithms, DBMS
- **Tools:** SAP BTP Cockpit, CPI Operations Cockpit, VS Code, Git, GitHub

PROFESSIONAL EXPERIENCE

SAP BTP CPI & PI/PO Consultant | Diverse Infotech Pvt. Ltd., Gurugram | Nov 2024 – Present

- Migrated 20+ integration scenarios from SAP PI/PO to SAP BTP Cloud Integration (CPI) for 5 enterprise clients across automotive and financial services.
- Designed, developed and deployed 125+ CPI implementation interfaces (iFlows) using SOAP, REST, OData, IDoc, SFTP, JDBC and HTTP adapters, with message mapping, XSLT transformations and Groovy scripting for complex business logic.
- Delivered zero-downtime go-lives through unit testing, UAT support and post-go-live hypercare monitoring in CPI Operations Cockpit.
- Troubleshot and resolved production failures through root cause analysis, including 401/403 authorization errors, SSL/certificate issues, Cloud Connector connectivity and OData/IDoc errors.
- Implemented reusable exception handling frameworks and prepared technical design documents and migration runbooks for every client.
- Delivered integration solutions for clients including Pristine Hyundai, Deepiping, J2ES, BFL and Maruti Suzuki.

PROJECTS

- **Enterprise Integration Migration (SAP PI/PO to SAP BTP CPI), Automotive & Financial Services:** Migrated 20+ scenarios from SAP PI/PO to SAP BTP CPI for a leading automotive OEM and a financial services major, re-engineering IDoc, SOAP and REST interfaces with Groovy and XSLT; achieved zero-downtime cutover through structured testing, UAT support and hypercare monitoring.
- **SAP S/4HANA to Bank Payment Integration (NEFT / RTGS):** Developed an iFlow to deliver payment data from SAP S/4HANA to the bank over SFTP with PGP encryption and dynamic file naming; implemented a sent-flag callback to SAP to keep payment status reconciled end to end.
- **Third-Party API to SAP S/4HANA Contract Booking:** Integrated an external REST API with SAP S/4HANA through OData to automate contract booking, with data mapping and error handling.
- **Logistics Shipping API Integration (Order Creation and Webhook Tracking):** Implemented order creation and webhook-based shipment tracking across SAP S/4HANA, SAP CAP and SAP CPI.
- **Invoice Delivery on WhatsApp (Meta Graph API):** Automated delivery of invoice PDFs to customers on WhatsApp through SAP CPI and the Meta Graph API.
- **Dynamic OData Integration (SAP S/4HANA to Microsoft Business Central):** Developed GET iFlows on custom OData V2 services with Groovy-driven dynamic filters (for example, plant-based) to feed Microsoft Business Central.
- **e-Way Bill (ClearTax) and Private API Connectivity:** Integrated e-Way Bill generation through ClearTax and connected CPI to VPN-only private APIs via Cloud Connector, isolating firewall and web-filter blocks.
- **SAP API Management Implementation (Multiple Client Tenants):** Configured API proxies, policies and provider connections in SAP API Management across several client tenants.

EDUCATION

B.Tech in Computer Science Engineering | Pranveer Singh Institute of Technology, Kanpur
Intermediate (ISC, Class XII) | Wendy High School, Kanpur
High School (ICSE, Class X) | Wendy High School, Kanpur

CERTIFICATIONS

SAP CPI Certification - Udemy | SAP PI/PO - Udemy | DBMS – Infosys Springboard
